Chairman's Statement

Chong Lek Engineering Works has been experiencing rapid growth since it opened its doors in 1979. We are indeed pleased with the stronger sales and profitability performances, as it is reflective of the commitment and direction of vision that Chong Lek Engineering Works embraces.

In spite of the effects of the global economic pendulum, we managed to achieve sustained and increased growth. We are confident that Chong Lek Engineering Works will continue to grow at a positive rate. This positive and optimistic outlook is based on the strong growth in domestic as well as international demand.

We will continue to enjoy our remarkable success as we continue to strive for sustainable, capital efficient and profitable growth where we will pursue our vision. Our emphasis on innovation and breakthrough is depicted in our continuous research and development in offering first class products and services to all our customers.

WE will continue to evolve and adapt to a changing world but our basic foundation remains unchanged and reflects our commitment to meeting the accelerating and changing demands of our customers.

Our ultimate vision is to become a multi national company. We intend to expand our horizon into the international markets to serve and meet the demands and requirements of our customers from round the world. More importantly, we are looking at building long term relationship with our clients. At present, we have good business relationship with a few multi national companies abroad. This served as a foundation for Chong Lek Engineering Works towards achieving our vision in the near future.

In order to ensure that our vision will become reality, we will continue to innovate, improve and adapt along with the rapid technology advancement to provide quality products and excellent services. Our vast and valuable experience in this industry, coupled with our modern technology as well as profound reputation in the Malaysian market, our vision is just one step away.

Company History

Chong Lek Engineering Works was founded by **Mr. Chong See Kiew** in 1979. His passion to venture into the steel mill industry has led to the establishment of Chong Lek Engineering Works.

Mr. Chong See Kiew's perseverance and diligence is depicted in the success that Chong Lek Engineering Works today. He emphasizes on constant innovation through improvements in the product offerings and services. At Chong Lek Engineering Works, we recognise that our employees are our best assets. With this in mind, we constantly encourage innovation in our technology. Mr. Chong See Kiew had instilled this mindset and this has led us through numerous success and breakthroughs.

Chong Lek Engineering Works expanded its horizon by establishing **NAGASRI UNGGUL SDN BHD** IN 1996 to carry out steel structural works of boiler and steel cooling system.

In 1997, Chong Lek Engineering Works started its overseas market business, particularly Germany in which Chong Lek Engineering Works has been supplying materials, steel and copper fabrication to the major projects undertaken by the Germany customers; and this is the result of excellent track record of providing world class products and services in Malaysia since then. This leads to satisfaction shown in Chong Lek Engineering Works products. Chong Lek Engineering Works deals with all business dealings with the highest degree of integrity. Trust and long term business relationship are therefore fostered to ensure the continuous success will be experienced by Chong Lek Engineering Works and all customers.

In the same year, MG Amalgamation Sdn Bhd was established to construct boiler steel cooling system to accommodate to their increasing demand in our products and services.

Throughout the years, we have built up a strong reputation for high quality products and services. Megasteel Sdn Bhd, Amsteel Mills Sdn Bhd, Southern Steel Bhd and Ann Joo Integrated Steel Sdn Bhd are our customers just to name a few where we undertook major projects. These projects executed ranges from simple decks and platforms to more complex upgrading system projects.

Our Mission

“Breakthrough through Technology”

The dynamism and resilience of the Chong Lek Engineering Works paved the way for continuous development and innovation.

As such, we endeavour “**Breakthrough through Technology**” in every aspect.

“Innovation”

Fast pace advancement of technology has led us to be constantly innovative in our products and services. We constantly innovate in order to keep abreast with the latest technology and to ensure that all our customers’ needs and demands are met at all times.

“Customer-Focused”

We strive to deliver the best products, services and support align with our commitment to be a customer-oriented organisation.

“Integrity”

We conduct business with the highest degree of integrity. At Chong Lek, we look towards sustaining long-term relationship for continuous advancement and success.

Technology

When it comes to technology,

Chong Lek Engineering Works Sdn Bhd goes for the best. There is absolutely no room for compromise in this area. Our remarkable success today is a result of stronger synergies, improved efficiencies, new and improved products and consistent marketing efforts all directed at satisfying our customers.

Chong Lek Engineering Works Sdn Bhd recognises the added value impact of technology to its business competitiveness and sustained growth. We integrate and collaborate the latest technology manufacturing of our final products.

Quality, excellence is depicted in our final products. We exercise quality control in manufacture because we only believe in delivering the best to our customers. We manifest this recognition through our commitment to technology development and investment in infrastructure, projects and employee development.

To Whom It May Concern:

Re: Chong Lek Engineering Works

From 2nd of July 2012 to 16th September 2012, Amsteel Mills Sdn Bhd (Banting Operation) has performed Upgrading Project for the High Speed Train Rod Block.

The original piping were removed and replaced with new piping inclusive of piping for cooling water, lubrication and hydraulic oil, and compressed air.

Throughout the project, they have shown great professionalism and performing the job without any flaw. I would emphasize on the quality, tidiness, accuracy and enthusiasms of their team.

In addition, they performed their work ahead of schedule which leads to other contractor to complete their work faster as well.

I would recommend this company to other should there any demand for their service.

Dear Sir,

RE : CHONG LEK ENGINEERING WORKS SDN BHD

Please accept this letter as my highest recommendation of the construction firm, Chong Lek Engineering Works Sdn Bhd.

The success of any complex project depends in large measure on the team assembled and the team's ability to communicate and work collaboratively towards the goal. Chong Lek's service to the projects was excellent and their contribution to the construction team commendable.

Chong Lek Engineering Works Sdn Bhd has shown their ability to collaborate as team players and have been willing to be flexible with the schedules. Understand that it takes highly qualified personnel to maintain good relationship, manpower and material procurement were managed well and as adjustments were required Chong Lek smoothly made those adjustments to enhance the flow of construction progress.

It was a pleasure working with Chong Lek Engineering Works Sdn Bhd team and would welcome their contribution to future construction teams we work with. If you would like a reference for the future, we would be happy to provide one.

Thank you.
